## LIST OF CLAIMS:

Claims 1 to 4 (Cancelled)

10 Claim 5. (Original) A removable twisting measuring device for various hand tools comprising:

a first cover removably installed on a rod body of a hand tool;

a strain gauge installed at one end of the first cover contacting the rod body of the hand tool; the strain gauge having a deformation as a twisting  
15 force is applied thereon;

a second cover removably installed on the rod body of the hand tool;

a display device installed on the second cover; the display device having a transfer element; resistance variation due to the deformation of the strain gauge being transferred to the display device so as to derive the  
20 twisting force which is then displayed on the display device.

Claim 6. (Cancelled)

Claim 7. (Original) The removable twisting measuring device for various hand tools as claimed in 5, wherein the cover is made from one of aluminum alloys and deformable materials.

25 Claim 8. (Original) The removable twisting measuring device for various hand tools as claimed in 5, wherein the display device has a screen and a calibrating button.
